## Luncheon Meeting, Wednesday, February 26th

The Club Restaurant at McInnis Park, 350 Smith Ranch Road, San Rafael

11:30 am – 1:00 pm

Speaker: Anthony (Skip) Fedanzo, Marin Amateur Radio Society

Topic: Is Anybody Out There??

The main character in the movie in some emergency is listening to a crackling radio trying to reach someone to come to the rescue.

Amateur radio, or ham radio, is an overlooked part of the audio landscape. This technology has been around for decades and people still rely on it today. Ham radio is best known for its impact in survivalist situations. Most modern communications channels, like internet and smartphones, rely on electrical and data grids. When natural disasters occur, ham radio continues to operate. Wireless technology offers reliability beyond the possibilities of power grids and cellular networks. These lines are always open for communication and offer help in times

of crisis. The Red Cross, FEMA, and other relief organizations often use ham radio to spread crucial information.

Our speaker, Anthony (Skip) Fedanzo, is a long-time member of the Marin Amateur Radio Society (MARS). He has been a field radio operator for MARS public service radio nets for events such as the Dipsea, bicycle rides and races in areas without cellular service. This service provides help for participants who need medical or mechanical aid.

Currently he leads a group of 20+ radio volunteers who will support Marin's Community Base Organizations (CBOs) in a disaster if all other means of communication fail. This team of Radio Communication Volunteers (RCV) is sponsored by Marin County Dept. of Public Works. RCV is beginning its fifth year of service to Marin CBOs as their backup.

Come learn about this critical service and fascinating hobby.

### President's Report

Congratulations! Thank you for all the volunteer hours and the money you gave to make possible the Trump/Vance win! As grassroot Republicans, we must continue to make our voices heard!

From the Patriot Journal, January 23, 2025:

“For years, the Golden State has been a shining example of exactly what not to do in American governance. From skyrocketing crime rates to homeless encampments that would make third-world countries blush, California’s Democratic leadership has turned the once-great state into a cautionary tale of progressive policies gone wild.

“While Governor Gavin Newsom jet-sets around the country attacking Republican leaders and plotting his inevitable presidential campaign, basic government services in California have deteriorated faster than a San Francisco sidewalk.

“California loves to remind everyone about its \$3.2 trillion economy – making it the world’s fifth largest if it were a country. But it can’t seem to figure out how to keep the lights on during a heat wave or protect citizens during natural disasters.

“But the most telling sign of California’s governmental malpractice isn’t in what they do – it’s in what they don’t do. Like basic emergency preparation. We expect competent leaders to be prepared.

“The results speak for themselves: other states continue to attract new residents while California watches its tax base flee to greener – and better governed – pastures.”

We must fight, fight, fight!!! To support change in California!

In 2025 and 2026 we will continue to support rebuilding our economy, securing the border, and protecting American families!

*Mary Grove, President*

### Satellite Club – Conservative Conversations, Cocktails, and Comestibles

Our first Satellite Club gathering for 2025 was at the home of Jan Miller in San Rafael. It was a very nice evening with a beautiful view of our lovely bay. We all shared stories and adventures of our holidays and visits from Santa. As usual, everyone shared yummy food and lively conversations.

And of course, we were all thrilled that Donald Trump has taken over the White House again.

It promises to be an interesting but (perhaps) turbulent 4 years as the Democrats will most likely want to thwart many things he will do. We all have to keep our spirits high and do our bit to support him.

Our next Satellite Club gathering will be Friday, February 28, at the home of Chuck and Cindy Eisenhower in San Rafael. Please do mark your calendars!!

### Elections – News

Marin County Registrar of Voters, Lynda Roberts, announces her retirement as of June 30, 2025..

### In Memoriam – Elvira Lindemann

Our much loved and long-time member, Elvira Lindemann, passed away on January 15, 2025 at 100 years old. She was an avid follower of the political landscape all during her life. For us and our members she served most recently as our MRWF Hospitality Chair, a role in which she could not be resisted; she came around to your table each luncheon and sold you 'opportunity drawing' tickets. She served as a MRWF Board member over the years. Even when she 'retired' from her position two years ago, she enjoyed joining us for our Board meetings.

Elvira lived in San Rafael all her life and for 99 of her 100 years lived on the same property on which her father built the family home. She graduated from San Rafael High School in 1942. Her working life found her at Bank of America as a Teller and at Marin County in the tax department. She and her husband, Barney, were avid Packard Club members.

MRWF members will miss this wonderful lady.

### Legislative Report

By Ruth Holly – MRWF Legislative reporter

Non-profit environmental terrorists successfully eliminated 6 dairy farms and 6 ranches from the Point Reyes National Seashore with the help of Representative Jared Huffman, Marin Supervisor Dennis Rodoni and the US Park Service. This adds to the 2014 victory under President Obama eliminating the Drakes Bay Oyster Company. Congressman Clem Miller of Marin County successfully established The Point Reyes National Seashore in 1962. Point Reyes dairies and cattle ranches have provided food for residents since the 1850s and currently provide about 20% of local agricultural production on 17,000 acres. In 2016 the Resource Renewal Institute, the Center for Biological Diversity, and the Western Watershed Project initiated a lawsuit opposing 20-year lease extensions for dairies and ranches. Their goal was the elimination of the historic dairy farms and cattle ranches on the Pt Reyes National Seashore using the tule elk and water quality as excuses. In 2022 another non-profit organization, the Nature Conservancy, joined the lawsuit and negotiated a settlement done under gag-orders and without public comment. Dairy farmers and ranchers felt they had no choice considering the increasingly hostile leasing environment and lack of support from local politicians. This is a great loss for Marin County food security, for these ranchers and their way of life, and for the displaced farm workers. Who do Jared Huffman and Dennis Rodoni represent? Certainly not local humans.

Governor Newsom released a balanced budget proposal for the 2025-2026 fiscal year on January 10. The legislature must pass the budget by June 15 or have their pay docked. The final budget must be signed by the governor in November.

California legislators must submit proposed bills for legal review by January 24 and introduce the reviewed bills by February 21. Passed bills are presented to the governor in September and must be signed or vetoed by October 12<sup>th</sup>. Legislators are now restricted to 35 bills per 2-year cycle decreased from 50. The cost for each proposed bill is estimated to be \$30,000.

## Trump rips LA Mayor Karen Bass at wildfire briefing: 'You have emergency powers, just like I do'

By [Steven Nelson](#)

Published Jan. 24, 2025, New York Post

President Trump tangled with Los Angeles Mayor Karen Bass Friday after touring wildfire damage in America's second-largest city — demanding she use her “emergency powers” and allow residents to return to their homes to rebuild.

Trump, 78, championed resident complaints about not being allowed to access their properties to clear debris and begin reconstruction while blaming local policies for causing the catastrophe estimated to cost [\\$250 billion](#).

“I just think you have to allow the people to go on their site and start the process tonight,” Trump told the Democratic mayor, who was seated next to him during a roundtable discussion that included most of the area's congressional delegation.

“And we will,” Bass claimed, despite contradicting herself minutes later by offering a one-week timeframe for residents to be allowed to visit the charred remains of their homes.

President Trump pressed Los Angeles Mayor Karen Bass to allow residents to begin reconstruction from wildfire damage.

Bass protested that “we want people to be safe” — as residents shouted protests from across the room.

“I watched hundreds of people standing in front of their lots, and they're not allowed to go in,” the president retorted.

“It's all burned. It's gone, it's done. Nothing's going to happen... The people are all over the place. They're standing and they say...

‘We're trying to get a permit’, and the permit is going to take them, everybody said, 18 months,” Trump said.
